

Angela Jones Daniel RN, MSN, MBA
Certified Aging Life Care Manager

Identifying challenges and helping people solve them has been a passion of Angela's for years. She believes that the real challenges in life is helping people recognize that they are not in their situation alone, but rather have resources and help available that they didn't even know existed. This is never truer than with our senior population.

Angela has been a registered nurse for over 30 years. She has served the home care industry as both a Director of Clinical Operations and Vice President of Clinical Operations where she was able to decrease hospitalizations and ER visits by 50% in one of our most venerable populations.

Angela is empathetic and caring in her approach. She recognizes that a collaborative partnership is the best path to optimal care. She is blessed and honored to be able to assist families on a path that encourages health and wellbeing.

Angela is an avid traveler, enjoys her adorable cats, Sushi and Bubsey and when not at work she's on the dance floor learning how to perfect the salsa dance steps.
