

Christine Miller
Geriatric Care Manager

Christine was born in Chicago, Illinois. She is the youngest of five children and has had the opportunity to live in multiple states. She grew up skating competitively in the Southeast and has played league and tournament tennis for over 30 years. Her father was a WWII Army Veteran. Her mother worked in skilled nursing at Briarwood Nursing Home, which is still in existence off Northlake Parkway. Christine graduated from high school in Atlanta at the age of 16 and worked her way through college. She received a BA in Communications from Georgia State University.

Christine has 13 years of experience working with seniors. She started her career selling wheelchair vans, adaptive driving equipment, and stair lifts. She then transitioned off the road and spent 2 years selling new homes for a builder. Her passion for working with seniors drew her to a position selling and marketing Senior Living Services throughout the Southeast, including Independent Living, Personal Care, Assisted Living, Memory Care, and Skilled Nursing. She has managed numerous support groups and created others, including those for Parkinson's, Heart, and Memory Care Health Support. She has a passion for caring for sick children, animals, and aging adults. Her two Jack Russells - Rocket and Spanky - keep her busy, and she has the energy to keep up with them.
